

HATCHING HOPE ACCELERATING INCOME
(Supported by Heifer Project International, Walmart, Cargill, IFHD)

COVID FUND RELIEF REPORT – JANUARY & FEBRUARY 2022

The Covid - 19 crisis and subsequent lockdown slowed down the economic conditions of many in the world. The marginalized and small farmers of our Country too were hit by this outbreak.

Heifer International came forward to support some of our farmers who were affected by this Covid-19 wave. This support was provided in the form of revolving funds to the most vulnerable rural families belonging to small and marginal farmer communities who were impacted by the pandemic.

This additional fund was allocated to farmer members of FIGs belonging to 3 FPOs (Rolla, Tanakallu and Narpala) of Anantapur, Andhra Pradesh. Each FIG was allotted Rs. 29,000/-. The identified beneficiaries were disbursed funds as per their plan of action and were asked to repay the funds back to their respective FPO in 6 months-1 year from the date of disbursement, depending upon the IGP (income generation program) chosen by them.

The beneficiaries identification was made by FIG members in their meetings through discussion with them. FIGs identified beneficiaries were cross checked by BODs in their BODs meetings.

During the process of identification, it was observed that none of the shareholders directly were infected by Covid, but one or two of their family members were affected. The list of such families was sent to the Heifer team for their approval. Upon receipt of approval from Heifer, the money was transferred to respective FIG members - totaling to 114 members.

The farmers agreed to use this fund for farming, livestock purchases, fertilizers, backyard poultry activities, setting up new petty shops, expanding existing petty shops, and support in enhancing their incomes.

The detailed list of members along with amount disbursed to each one of them, region wise for the months of January and February 2022 is attached below for your ready reference.
